

Oriol Vilaró Roca

Software Engineer – Mobile apps & Videogames

📞 +34 625 91 82 79 ✉️ ovilaro@fastmail.com 📍 Tarroja de Segarra, Lleida, Spain

Profile

Software engineer with experience leading programming teams and launching multiple mobile apps and games to the market. Self-taught, comfortable working both solo and in teams.

Experience

Game Developer · DABADU GAMES – 2017-2024

- Lead developer of three games in Unity launched on the App Store and Google Play, and of a Netflix-published title released on iOS, Android, and Nintendo Switch.
- Godot prototype with state machines and procedural level generation.

Team Lead & Mobile App Developer · MODDITY – 2014-2017

- Led programming teams building iOS and Android apps.
- Specialized in iOS development.

Mobile App Programmer · BAZINGA SYSTEMS – 2011-2014

- Programmed iOS apps for iPhone and iPad.

Database App Programmer · BONÀREA – 2005-2010

- Managed a food-warehouse database app: stock, orders, inbound/outbound, staff time.
