📍 Raval Josep Pané, 16 · 25211 Tarroja de Segarra, Lleida, Spain

Profile

Software engineer with experience leading programming teams and shipping multiple mobile apps and games. Self-taught, comfortable working both solo and in teams.

Experience

Game Developer · DABADU GAMES — 2017–2024

- Lead developer of three games in Unity shipped on the App Store and Google Play, and of a Netflix-published title released on iOS, Android, and Nintendo Switch.
- Godot prototype with state machines and procedural level generation.

Team Lead & Mobile App Developer · MODDITY — 2014–2017

- Led programming teams building iOS and Android apps.
- Specialized in iOS development.

Mobile App Programmer · BAZINGA SYSTEMS — 2011–2014

- Programmed iOS apps for iPhone and iPad.

Database App Programmer · BONÀREA — 2005–2010

- Managed a food-warehouse database app: stock, orders, inbound/outbound, staff time.

Certifications

Mobile app development for iOS and Android with Flutter — CIFO L'Hospitalet (SOC) · 2025
240 h · Pass (Notable) · Code: IFCD0002-1

Education

Higher Vocational Degree (CFGS) in Software Application Development · La Salle Gràcia, Barcelona — 2002–2004

C++ Programming · CIPSA — 2001–2002
